- Yara Al-Jammal: 20200717.
- Zina Ali: 20201082.

Project Aim:

This project is about a Sports Club called Brave Athletes, We decided to make this website that shows a lot of information about the club such as Upcoming Events, information about the available sports that we offer, and an E-Store that sells a lot of sports products that serve every athlete needs.

Special Feature:

- Our home page has a slide show where you can add your own photos related to the club and will be added to the slide show.
- We have a page for the Store that stimulates the real-life stores for the big sports companies, and it has the feature to add all the products you want to buy and check out all of them at once.
- We have a ***Great Navigation Bar*** that is ***Responsive*** and helps the user to move from one page to another.

You can find in the Brave Athletes Club:

1. Football

Football is the most popular game around the world. Football is a team sport based on the principle of cooperation and team spirit, which are among the most important principles of our club. In the Brave Athletes Club, we have developed many training programs for different age groups, which aim to graduate a cohort of skilled football players.

2. Tennis

Tennis is an Olympic sport that is played at all levels and groups of society and for all ages. It is a famous and widespread sport all over the world, and the major tennis tournaments enjoy a large public and media following, which places it in an advanced rank among the most important and followed sporting events in the world annually. Therefore, in our club, we have provided special courts for tennis training.

3. Chess

Chess is one of the most famous and oldest board games. Which aims to strengthen concentration, as it requires great concentration in every step a person takes. Chess also activates and strengthens the brain, as it works to develop the ability to recognize patterns and make decisions.

4. Aerobics

They are exercises in which the muscles of the body are moved in a repetitive pattern, light to medium intensity, and for a relatively long period. They also work to enhance the heartbeat, and they are called aerobic exercises because they are special exercises that depend on the use of oxygen as a mediator to create the necessary energy.

Let's register in the club!

The screenshot shows the phpMyAdmin interface for the 'registration' table in the 'reg_club' database. The table has seven columns: Id, fname, lname, email, phonenumber, birthdate, and sport. The 'Id' column is defined as an int type with AUTO_INCREMENT, 'fname' and 'lname' are varchar(15) with utf8mb4_0900_ai_ci collation, 'email' is varchar(50), 'phonenumber' is varchar(15), 'birthdate' is date, and 'sport' is text with utf8mb4_0900_ai_ci collation. There is a primary key constraint on the 'Id' column.

#	Name	Type	Collation	Attributes	Null	Default	Comments	Extra	Action
1	Id	int			No	None		AUTO_INCREMENT	Change Drop More
2	fname	varchar(15)	utf8mb4_0900_ai_ci		No	None			Change Drop More

Detailed description: This screenshot shows the 'Structure' tab of the phpMyAdmin interface for the 'sign_up' table in the 'reg_club' database. The table contains three columns: 'Id' (int, AUTO_INCREMENT), 'email' (varchar(50)), and 'password' (varchar(16)). An index named 'PRIMARY' is defined on the 'Id' column. The interface includes tabs for Browse, Structure, SQL, Search, Insert, Export, Import, Privileges, Operations, and Triggers. A sidebar on the left lists databases and tables. A bottom navigation bar includes Print, Move columns, Normalise, Add, Create an index on, Partitions, Partition table, and Console.
